## Nothing is more constant than change.

The quote from the Greek philosopher Heraclitus very aptly describes the challenges that we have all had to face socially and personally in the past two years. A topic like Covid has changed a lot and inseparably provided topics for conversation and also fears, both privately and professionally. A pandemic of this magnitude with deep cuts in freedom of movement was still unimaginable in 2019. 2020 was not only the beginning of Covid-19, but also our 100th anniversary for our company. Of course, we had imagined this completely different and we would have liked to toast with you and celebrate this special event appropriately. Nevertheless, we had planned something special for our 100th anniversary. One of our brand cores to this day is the craftsmanship and the knowledge about the production of high-quality straight razors. It quickly became clear that it would be the launch of a strictly limited edition anniversary straight razor. The handle consisted of the wood of a 100-year-old beer keg. For refinement, we added an element made of nickel silver.

The shiny silver look complements the beautiful wood and the hammer blow technique used on the blade itself. We only produced 118 individually numbered straight razors, and maybe you were lucky enough to be able to call one of these knives your own.

Of course, we are also engaged in the topic of sustainability and environmental protection. As a family business that produces in Germany, we see ourselves as having a special responsibility. This enabled us to further expand the topic of zero waste in our product lines. „No Plastic“ is our short-term goal.

What else can you look forward to in 2022/2023! Our Giesen & Forsthoff Pure Shaver Safety Razor is back. You kept asking about this great value for money safety razor, so we've included it in the catalog again. We have also treated our care range for men and women to a makeover with new formulas. Naturally produced in the best organic quality and 100% vegan. We also revised the alternative to our popular leather cases for the manicure sets, made from Cork. The high-quality and 100% vegan cork material used will give you a lot of pleasure as a 3- or 5-piece manicure set in different versions.

At the end we want to come back to Covid. Not only was Germany able to make a significant contribution to developing vaccines and helped contain the pandemic, but the whole of Germany also felt that it was ready to go digital. This trend has also reached us. Our factory outlet at our production site in Solingen was put online with a selected product range last year. The factory outlet at our site as well as online should contribute to further branding through higher visibility in Germany and support you in your sales activities in selling G&F products. Of course, we will be happy to provide you with product images and texts on request. Feel free to contact us.

We hope that you will browse our catalog with the same pleasure we have. Stay safe and sound.

Your Giesen family

# Handmade straight razors

The blades are hollow-ground with finesse.

## G&F straight razors.

*Perfect tool for a classic shave.*

Our handcrafted straight razors, made by our professional craftsmen in Solingen, are not only professional tools for barbers, but also collector's pieces. Available in high-class carbon steel or easy-to-maintain stainless steel and various blade shapes and sizes from 4/8 to 6/8 inch. The full hollow ground, hand-grinded blades are enriched with traditional etchings and partly gold-plating and stand for the highest quality and craftsmanship. Besides the different designs of blades, we offer a variety of wooden-, celluloid- and handles made of Titanium and Stainless-Steel. Design matching shaving items are also available.

All straight razors are full hollow ground and 100% made in Solingen/Germany.

You can order in the following steel-variations, unless otherwise indicated:

## The G&F Safety Razor 1920.

*A prestigious masterpiece.*

G&F shaving products do have a long tradition and enjoy a good reputation worldwide. Just recently, the online issue of British 'Independent' ranked our Traditional Safety Razor No. 3 of the best 8 safety razors. Honour and acknowledgement at the same time. We offer our high-quality Safety Razors from the 1920 series in a variety of different designs. Assemble your own safety Razors out of 2 different Shaving heads (closed comb and open comb) made in zinc diecasting/chromium plated and a selection of the handle lengths (80 mm and 100 mm). In point of different materials, we offer you either, stainless steel, wooden handles (i.e. Olivewood, American Nut wood or Ebony wood). 100% German Quality – 100% G&F. For the Safety Razors, you get the Timor® DEB Blades, for a pleasant and clean shave.

Generally, our premium safety razors feature:

Detachable shaving head made of zinc-die-casting and chromium plated, available in closed or open comb version, matching handles in 80 or 100 mm length.

The 1920 series safety razors are delivered in a presentation box with 10 Timor® DEB blades.

## WOMEN'S SHAVING.

ZÓE – ALL NATURAL FOR THE SMOOTHEST SHAVE.

## ZÓE, simply different.

*Simply sustainable.*

The shaving experience with one single blade is not only safe and smooth, but also minimizes skin irritation. All ZÓE models are perfectly weighted and balanced, to support you in just putting the right pressure when shaving. The super sharp single blade cuts the hair closely, instead of pulling and causing ingrown hair. You will experience a smooth shave and soft skin. The premium blades will last up to 10 shaves and can easily be disposed inside the dispenser. ZÓE is the combination of quality, design and sustainability. 3 premium models are available, in matt gold, rosegold or matt black – delivered in a cardboard box, including 10 premium blades.

## VEGAN. ORGANIC. FEMININE.

ZÓE – THE NATURAL  
SHAVE AND CARE.

### By Experience.

*Premium ingredients for a premium shave.*

ZÓE is different, and the big success of the lately launched line of women's shaving is a proof. Therefore we have enlarged this new line of sustainable women's shaving with new body care products. ZÓE is perfect for sensitive skin, and its all natural and organic ingredients will help you experience a smooth and safe shave. The products of the ZÓE line are made of premium natural ingredients, without any chemical additives, and scented with organic essential oils. Of course in organic quality and 100 % vegan.

### #944

ZÓE shave oil, organic ingredients,  
natural scent 'Wild Orange'.  
In glass dispenser, 50 ml.

## ZÓE Premium razor blades.

Our ZÓE Premium razor blades fit perfectly into the ZÓE women's razors. You will get a smooth and mild shave. Extremely durable and sharp, these will last for up to 15 shaves per side. 100 % quality made in Solingen, Germany. The stainless steel razorblades are single wrapped in wax paper and packed in a dispenser.

### #945

10 razorblades in dispenser in hanging box.

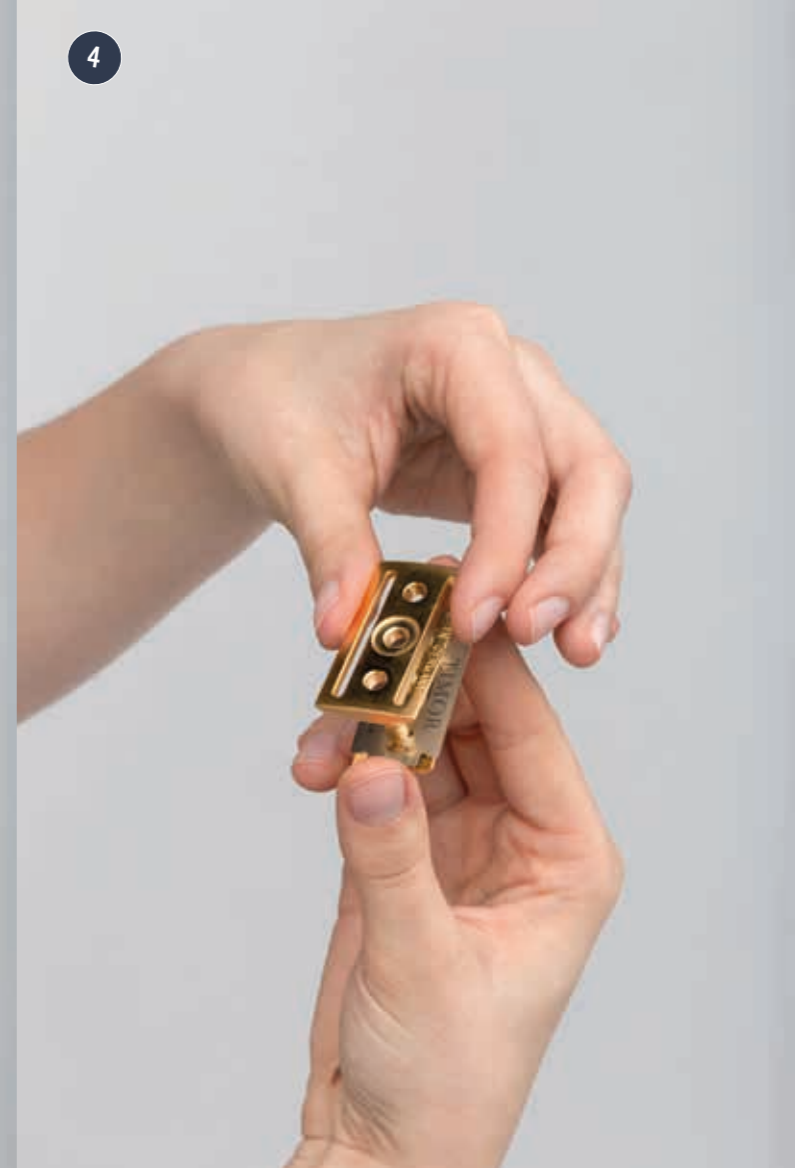

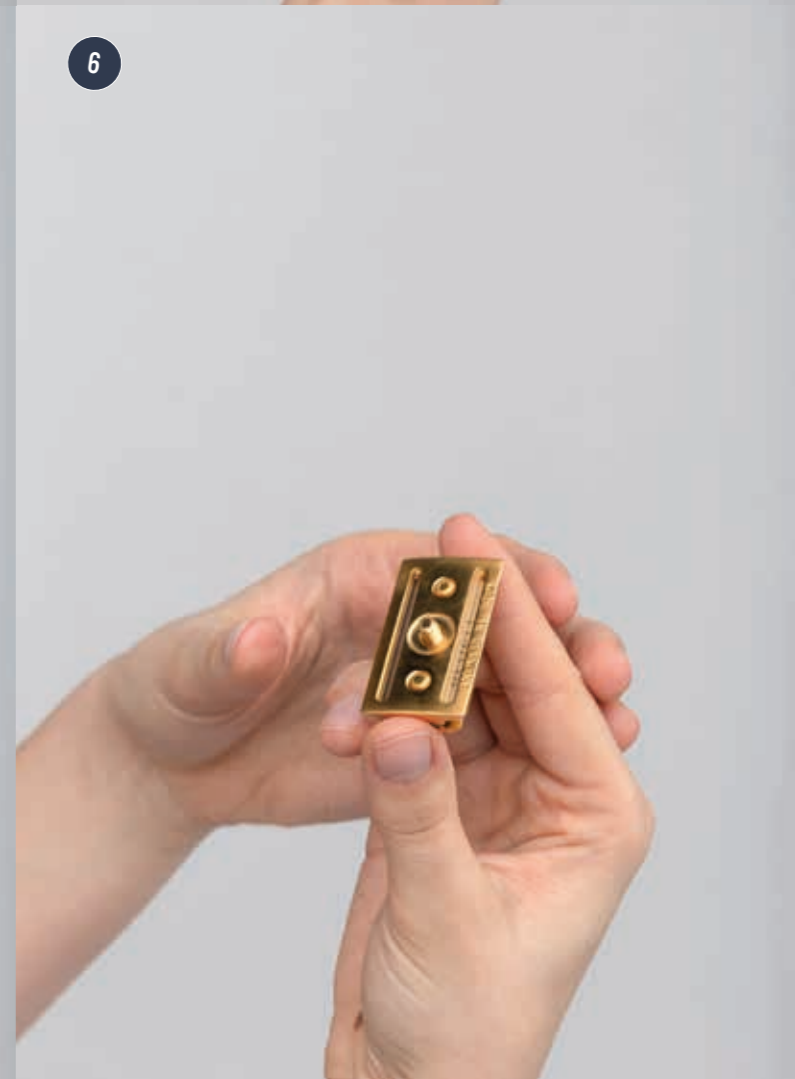

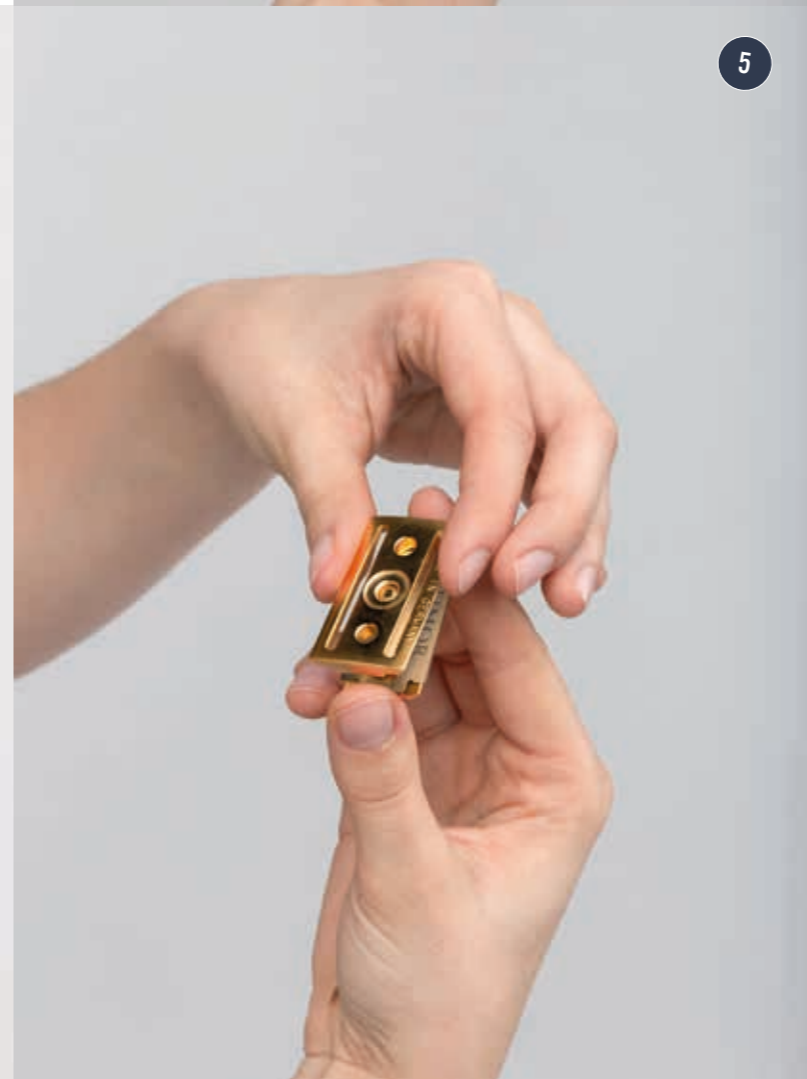

### #945 banderole

10 blades in paper bag.

## The blade is easy and safe to use.

Open the blade's wrapping paper so that you have free access to the blade. Now unscrew the shaving head, holding onto both short ends. Place the razor blade on the top plate with the thread. Now place the shaving plate on it and screw the razor shaving back onto the handle. Please always hold on both short ends so that you do not come into contact with the sharp cutting edge. Now you can start shaving. Ideally, you put the razor on the skin at an angle of 30 degrees, so you get the best results and protect your skin.

Have fun with your ZÓE!

# Unisex Shaving

Popular – Gentle Shaver with Butterfly mechanism.

## Be gentle!

*The entry into wet shaving for everyone.*

The Gentle Shaver offers great unisex designs and the perfect introduction to wet shaving. With our Gentle Shaver line we combine value for money and comfort and zero waste shaving for him and her.
